

THE SIMPSON TIMES

PERHAPS THE MOST UNWANTED COUPLE IN THE DESERT. SWEEP ANDREW AND PARTNER KATE

Sweep and partner on intensive training in Bali

With only weeks to go to the start of the 2009 Simpson Desert Bike Challenge, there were extremely disturbing reports coming from Bali, in Indonesia. Andrew Griffiths the desert sweep and his partner B..... Kate have been seen on intensive training on the streets as well as in the country side of Bali. During an exclusive interview with the Simpson Times, Sweep Andy unveiled his plan about this years tactics and strategies. Under all circumstances he wants to maintain his 100% success

record of last years race. Strategies are simple, NO MERCY and SORROW. No support for nobody. Simply play by the rules and punish. Despite his commitment to total achievement he would be quiet open to discuss with potential victims the possibility of a bribe..... as he attended some classes in this field on the island of Gods. Should however for some unexplained reasons, as widely expected, the sweep fails in his duties, then he will seriously consider to

return back to Bali and take up an apprentice position as a Sate Maker...

Wishing cyclists and supporters a fantastic 2009 event.

From Bali with best regards

Heinz von Holzen - Simpson Veteran

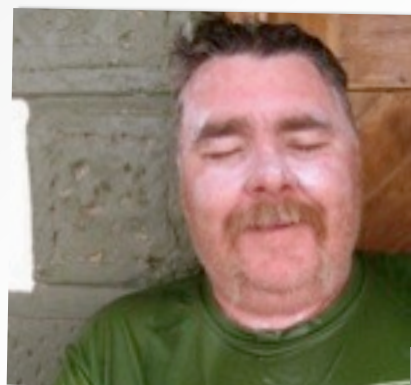

I will take part in this years Crocodile Trophy
